FLOWER ART IN THE GARDEN: BY THE VICTORIA FLORAL ARTISTS GUILD

Flower Art in the Garden (previously Land Art) by the Victoria Floral Artists Guild is a contemporary ecological Floral Art/Design medium where larger floral structures form a harmonious relationship between nature and found materials positioned in an outdoor setting. Freedom of expression plays a part in Flower Art in the Garden displays where Floral Art/Design is taken from the inside setting to outdoor natural setting. European and American floral artists have produced Land Art Shows but the Victoria Floral Artists Guild is the only Floral Art Association that has accomplished this west of Toronto. The Guild has been producing Floral Art in the Garden since 2009 and HCP is the perfect setting for this art medium. If you start at Map # 52, the Guild members will have a listing of the designs, locations, and insider information. As well, short floral demonstrations will be scheduled by members of the Guild.
