

### **Horticulture Centre of the Pacific's Corporate Membership Program**

Established in 1979, the Horticulture Centre of the Pacific (HCP) is the home of a 43 hectare resource for the Greater Victoria community that offers a nature conservancy and demonstration gardens featuring Pacific Northwest coastal garden designs, the largest outdoor Bonsai garden in Canada, and a range of educational and training programs for gardening enthusiasts and professional gardeners in the region and beyond.

HCP is a not-for-profit society that is sustained by an enthusiastic and loving community of volunteers and corporate supporters who see the value of the garden in helping foster the connection between the people and the natural environment. HCP provides the community with a beautiful venue for a wide range of social and cultural activities such as an annual Arts and Music festival, educational events, private and corporate celebrations, family gatherings, and personal recreation and rejuvenation. It is also the Home of the Pacific Horticulture College which is instrumental in creating economic and social value by preparing future generations of professional gardeners for the challenges of sustaining and enhancing our physical environment.

Some key facts about HCP:
